Precautions and Disclaimers

Precautions

1. Some of the illustrations in this parts catalog are simplified.
2. Depending on the specifications of your product, the actual product and parts catalog may not match.
3. Please use genuine parts when repairing the product.
4. When ordering spare parts, please confirm the specifications (model name, serial number, part number, quantity, etc.) and confirm with your distributors or dealers.
5. Please refer to the user manual or service manual for information on how to replace parts, technical information, and other related details.
6. If you are using a booklet or PDF parts catalog, you must verify the latest information via the online parts catalog.

Disclaimer

1. Our company will not assume any responsibility for the matters stipulated in each of the following items.
 - 1) The contents provided in this parts catalog may not correspond with the latest products due to the changes in regulations, product specifications, or other amendments.
 - 2) The illustrations of the products listed in this parts catalog (including 3D images) are for image purposes only and may differ from the actual product and specifications.
 - 3) This parts catalog does not guarantee conformity to the customer's requirements.
 - 4) In addition to the previous items, we do not guarantee the accuracy, completeness, assurance, applicability, usefulness, availability, safety or reliability of this parts catalog.

Precautions and Disclaimers

Preface

(1). This parts catalog is for ASV compact track loader RT-50

(2). This parts catalog does not contain the technical data needed for service.

The illustrations used in this parts catalog have been simplified for clarification.

The content of this parts catalog is subject to change without prior notice. As a result, ASV cannot be held responsible if ordering parts from a paper version of this catalog.

Always use genuine ASV replacement parts to ensure the proper form, fit, and function of components.

Always be sure that the part has the correct part number before ordering by checking on the ASV Parts Portal.

(3). Painted Service Parts

Paint color needs to be specified when ordering painted components. When ordering painted components, inform the support representative of the brand and model name of your machine before selecting the proper color from the list below. The support representative should be able to assist you in finding the correct one based on your machine's VIN number. This should help to identify the original machine configuration and nomenclature

*Note: Not all colors are available on all components. Available colors are limited to those considered "standard" on your particular machine and component(s). Please do not attempt to order non-standard colors for your machine as the order will not be fulfilled until corrected.

The color codes are to be referenced as a suffix to the part number of the component you are requesting, for example: 0000-000-BLK (indicating a black part).

The following is a list of available colors.

<u>Color</u>	<u>Color Code</u>
Black	BLK (all models)
Yellow	YFY (ASV)
